

**Transform your
software delivery
with our SDETs**

Agile solutions partner

SDETs

The Key Player in Agile

Today's fast-paced software development comes with new challenges, new requirements, and new opportunities.

The unique skills that an SDET brings to your team provide the technical specialty of an automation tester with the broader knowledge of a developer.

Accelerate your production time and quality by hiring our SDET technical professionals.

Our SDETs

Selenium Automation Testing
Acceptance Testing
Cucumber & Gherkin

DevOps Awareness
Java Data Structures
JDBC & SQL

HTML & CSS
Javascript
XML & AJAX

SDETs are an indispensable resource for Agile software development. We specialize in finding and placing these consultants.

OUR SERVICES

- Consulting & Placements
- Corporate Training & Coaching
- Software Development & Outsourcing
